NUMBER 4.

## MONETARY MEETING.

Americans Heard in the Berlin Conference.

### OUR PROPOSALS SUBMITTED.

The Plans Will Probably Be Rejected, as Several of the Foreign Countries Have Plans of Their Own and the English, German and Austrian Delegates Are Very Much Opposed to Any Change Being Made.

BRUSSELS, Nov. 26.—The international monetary conference resumed its sittings yesterday. Senator William B. Allison and Senator John F. Jones set forth the American suggestions, basing them on a general view of the monetary situation in the United States and in the countries represented in the conference.

The proposals laid before the conference by the American commissioners are as follows:

"It is generally admitted that the very large depreciation of silver, as compared with gold in the last twenty years, and the frequent and violent fluctuations of silver incidental thereto, have been injurious to the commercial and other economic interests of all civilized countries, and have caused and are causing serious evils and inconveniences to trade, the full extent of which can not yet be measured. It is the belief of the people of the United States, with singular unanimity, that the re-establishment of some fixity of value between gold and silver and the full use of silver as a coin metal upon a ratio to gold to be fixed by an agreement between the great commercial nations of the world, would very greatly promote the prosperity of all classes of the people.

"They are not unaware, however, of the fact that public opinion in some other countries whose co-operation in a successful movement for such an agreement, is most desirable, may not fully accord with the views entertained in the United States as to the practicability of such an agreement. They believe, however, that the sentiment for the larger use of silver as a money metal has been steadily growing throughout the world, and that the present time is propitious for holding an international conference to consider the subject.

"The government of the United States, while frankly disclosing its own views as to the remedy to be applied, has not wished to impose any conditions that might be willing to confer upon the most advantageous relation of silver to the coinage of the world. For these reasons the government of the United States proposed a convention of the powers for the purpose of conferring upon what measures, if any, can be taken to increase the use of silver as money. In conformity of the purpose of this conference, the delegates of the United States offer the following resolution:

RESOLVED, That, in the opinion of this conference, it is desirable that some measures should be found for increasing the use of silver in the currency system of the nations.

"In presenting, as requested, a further program to be laid before the conference, the delegates of the United States consider it due to other nations represented that opportunity be afforded to them to consider plans for the enlarged use of silver as money, other than the one favored by the United States.

"It is our desire and expectation that the powers here represented, or their delegates, will submit proposals to this end, and we desire these to have precedence in the discussions. In addition to any plans of the kind which may be presented we submit for discussion the following which have been suggested by recognized authorities; at the same time we submit the general plan of bimetalism which is favored by the United States:

"Firstly, the plan of Mr. Moritz Levy, proposed to the monetary conference in 1881.

"Secondly, the plan of the late Adolph Soetbeer.

"Lastly, we present the plan proposed by ourselves as delegates of the United States: The re-establishment and maintenance of a fixed parity between gold and silver, and the continued use of both as coined money of full debt paying power would be productive of important benefit to the world. These ends will be accomplished by the removal of the legal restrictions now existing and the coinage of silver into full legal tender money, restoring by international agreement the parity of value between the metals, which existed prior to 1871, at such a ratio as the conference may decide upon. The essentials of such an international arrangement should be: The unrestricted coinage of both gold and silver into money of full debt-paying power, fixing a ratio in the coinage between the metals, and the establishment of a uniform charge, if any, to the public for minting gold and silver coins.

The plan proposed by the United States commissioners can not be discussed and pronounced upon until many other plans shall have been disposed of. The general attitude of the conference, however, leaves little doubt that the American plan will be rejected. The German and Austrian delegates are strongly against any measure which would necessitate any change of moment in existing legislation on the money question.

Sir C. Rivers Wilson, one of Great Britain's delegates, started for London last night, presumably to get additional instructions from his government.

Watching the Conference in Washington. WASHINGTON, Nov. 26.—The proceedings of the international monetary conference at Brussels are being watched with much interest from Washington. The reported attitude of England's rep-

resentatives in this conference—that of active efforts to defeat the accomplishment of any agreement—has been received with some surprise in official circles. Previous dispatches had caused the impression that the British commissioners would aid in bringing about some practical result by the conference.

In regard to the proposal yesterday offered by the American commissioners it may be stated that they were not set out in detail in the instructions given to the commissioners by the president. These were brief, the president stating that he did not desire to cumber the commissioners with details as to their duties. Much was left to the judgment of the commissioners and to the developments of the conference itself. The commissioners were informed that the main purpose which the government sought to accomplish was the establishment of staple relation between old gold and silver.

It was stated that it was the opinion of the president, and he believed of the people of the United States with singular unanimity that a full use of silver, as a coined metal at a ratio to be fixed by an agreement between the great commercial nations of the world, would very highly promote the prosperity of all the people of all the countries of the world. For this reason, the instructions continued, the duty of the commissioners would be to secure, if possible, an agreement among the chief commercial nations of the world, looking to international bimetalism, that is the unlimited coinage of gold and silver as the money of full debt paying power at a fixed ratio in coinage common to all the aggregate powers.

The commissioners were further instructed that no arrangement would be acceptable to the people or satisfaction to the government of the United States which would, by any possibility, place this country on a silver basis while European countries maintained the single gold standard.

### BANK AND STORE ROBBED.

Daring Deed Done by One Masked Man in New Mexico.

ALBUQUERQUE, N. M., Nov. 26.—One of the most daring robberies ever perpetrated in this territory occurred at San Marcial, a small town south of this city, yesterday afternoon. While Jasper P. Brailes, who runs a private bank and general store, was waiting on some customers a tall man, dressed in cowboy fashion, and wearing a mask over his face entered the place, gun in hand, and compelled the customers to stand up in line in one corner of the store.

He then turned his attention to Mr. Brailes and forced him to open the safe and hand over what ready money there was, something over a thousand dollars. The robber then backed out of the door, mounted his horse, which was hitched nearby, and escaped into the fastness of the Magellan mountains. No one in the store at the time knew the man and they were all too terror-stricken to give an intelligent description. The sheriff and his posse are in pursuit with but little hopes of catching the robber.

### Chicken Thief Shot.

BROWNSBURG, Ind., Nov. 26.—For a long time an organized band of poultry thieves have been working in this vicinity. Last night they visited the chicken coop of Peter Greeley, north of town. He heard them, and with his son, he shot at the thieves with a double-barreled shotgun. One of them was struck, and he was carried by the others to their wagon, and they started in the direction of Indianapolis. Traces of blood are perceptibly seen on Greeley's premises.

### No One Claimed Him.

SALEM, Or., Nov. 26.—Thomas Coleman, alias Cohegan, who is said to have been connected with the murder of Dr. Cronin in Chicago, was released from the penitentiary Thursday, after serving two years for robbery. It has been stated that Coleman was wanted in Los Angeles, Cal., and Chicago. Neither city made a requisition for him, and the prison officials gave Coleman his freedom.

### Midnight Assassination.

DANVILLE, Ky., Nov. 26.—Sidney Wortham, joint agent for the Louisville and Nashville and East Tennessee, Virginia and Georgia railroads, at Jellico, Tenn., was foully assassinated at midnight Thursday night by an unknown fiend. Three men have been arrested on suspicion. The cause of the assassination is thought to have been Wortham's crusade against houses of ill-fame.

### Frozen to Death.

WINNIPEG, Man., Nov. 26.—Charles F. Church, traveling representative of Sanford & Company, a dry goods house here, was found dead on the prairie near McLeod Thursday morning. He started to drive across the prairie and was caught in a blizzard, losing the trail. He was frozen to death.

### Passenger Train Ditched.

BRENNHAM, Tex., Nov. 26.—The south-bound passenger train on the Houston and Texas Central railroad was wrecked between Waller and Clear Creek yesterday morning. The whole train went into the ditch except the engine and one coach. Two people were killed and a number injured.

### A Fearful Leap.

NEW YORK, Nov. 26.—Mrs. Callahan, living on the fifth floor of 229 East One Hundred and Twenty-seventh street, came home to find her baby choked to death. In a frenzy, despite the efforts of a friend, she flung herself down the area shaft and was picked up mangled and dead.

### Engaged to a Count.

BERLIN, Nov. 26.—The engagement is announced of Count Ernest George Gersdorff, an officer in the First Uhlan guards, and Miss Nellie Peters, of Louisville. Miss Peters will spend the winter here with her sister, Mrs. J. A. Armstrong.

## GOLD EXPORTATION.

Shipments Today Slightly Affect the Speculation.

### OTHERWISE TRADE IS GOOD.

Condition of Business Throughout the Country Appears Excellent with a Volume of Trade Greater Than in Any Previous Year.

NEW YORK, Nov. 26.—R. G. Dun & Company's weekly review of trade says: The announcement that gold would be exported today, though not in large amounts, has not necessarily as much meaning as many suppose. Foreign exchange does not yet justify exports and movements not warranted by the state of exchange may be due to temporary and trifling influences. But net exports of gold in November have been known but once in thirteen years, and are likely to affect speculative markets.

The underlying cause is the excessive production of cotton and wheat last year, which overfilled the world's markets, and thus caused low prices here this year and small shipments of cotton. Apprehension about American finances has also affected European purchases of stocks, but monetary needs abroad, resulting in part from Russian demands, seem to be the immediate cause of the call upon this market. A large outflow of gold at this season might be important, but there appears at present no reason to anticipate a large export.

The condition of business throughout the country appears excellent, with the volume of trade greater than in any previous year.

At Boston trade is good, prospects are considered excellent, and money is easy at lower rates. Merchandise is fairly active, and though woolen mills are quiet the mills are well employed, while sales of cotton are very large, with an advance, and groceries are in satisfactory demand.

At Philadelphia trade in general is very active, and especially in hardware and electrical supplies and plants; money is easier from lack of demand, and is expected to be easier than usual for the coming month.

At Baltimore a slight increase is seen in the local demand for goods, the supply of money is ample, and the caution shown in southern dealings has been justified by excellent collections this season.

At Cincinnati cigar manufacturing does well, exceeding last year's trade 15 per cent., and jobbers are doing a satisfactory business with good prospects.

Trade is good at Cleveland, though not changed in iron, and dry goods are dull. Money is close, with active demand.

At Detroit trade is fully equal to that of last year, and money is in strong demand, but iron is lower.

The volume of trade at Chicago is satisfactory, and collections are good with money in strong demand, currency being wanted for the southwest. Receipts of cheese and broom corn are more than double last year's, of butter 50 per cent. larger, with slight increase in flour, barley, cattle and sheep, while in hides and oats the decrease is 10 per cent.; in corn, dressed beef and wool 20 per cent.; in eggs, lard and rye 50 per cent., and in wheat and seed 60 per cent. Smaller receipts are due in part to the phenomenal stocks on hand, those of wheat and oats being nearly double last year's.

Trade at Milwaukee is stimulated in all lines with gratifying results, and money is in good demand. At Minneapolis and St. Paul there is good trade, with collections improving, though still somewhat backward. The Minneapolis flour output is 187,000 barrels against 160,000 last year, and the lumber market is strong, the cut being 500,000,000 feet, the largest on record.

Trade in Omaha is very active, with collections good and money easy. At Denver trade is good with fair collections, and at Salt Lake City better than a year ago, with good prospects. At Kansas City livestock receipts are heavy, but grain receipts light, and at St. Louis retail trade is improved by more favorable weather.

Business at Memphis has slightly improved and also at Little Rock, though crop receipts are not encouraging, while trade is improving at New Orleans with money much easier and cotton and sugar very active.

In speculative markets cotton has absorbed interest because of enormous transactions, amounting to about 6,000,000 bales, or nearly the entire crop, in two broken and one full week. The sales this week have been 1,800,000 bales, and the prices have advanced five-sixths, with small signs of the reaction. Low crop estimates now prevail at the south on the ground that frost has done much damage. Wheat is comparatively inactive, with three-eighths of a cent decline, and corn and oats are unchanged, with small transactions. Pork products are higher. Coffee is also stronger by half a cent.

The condition of the great industries is decidedly favorable. Perhaps the boot and shoe manufacture fares best of all at the present time. It has been a phenomenal autumn in women's light goods. Woolen mills are still busy and sales of wool greater than a year ago. The cotton industry is thriving everywhere. In iron the market remains firm.

Money has been steady at 4 per cent., the treasury having added slightly to circulation by issuing \$300,000 more notes. Exports here for three weeks fall 17 per cent. below last year's and imports are much larger. Stocks have been weaker, but there is no sign of especial disturbance.

The business failures occurring throughout the country during the past seven days number for the United States 180, and for Canada 29, or a total of 209; as compared with totals of 240 last week, and 210 the week previous to

the last. For the corresponding week of last year the figures were 295, representing 287 failures in the United States and 58 in the Dominion of Canada.

### TRAIN HELD UP.

Three Men Rob a Northern Pacific Express Train.

SEATTLE, Wash., Nov. 26.—Three masked men held up the overland west-bound express on the Northern Pacific road, near Hot Springs, Thursday night. They boarded the Pullman sleeper Modena and robbed all the occupants, six in number. It is believed the robbers boarded the train at Hot Springs, as the train had not gotten five miles out of the city when they invaded the sleeper from the rear.

The first passenger held up was F. R. Miller, of Portland, Or., who was in the smoking compartment. The robbers took \$10 in money and his gold watch, and then at the point of their revolvers Miller was marched through the car ahead of them. One of the robbers went to the other end of the car, the other two guarding the end where they came in. All wore dark clothes and overcoats, slouch hats, and had handkerchiefs tied over their faces, holes being cut in the handkerchiefs so they could see.

After Miller was robbed they placed revolvers at the heads of the passengers commanding them to hold up their hands. The command was obeyed. As the frightened passengers stood up and were being relieved one by one, J. S. Freedman, of Portland, Or., came in from an adjoining car. Not complying with the order to throw up his hands the robbers nearest to him shot through the side of the car.

Freedman at once handed over his valuables. There were several women with their children in the car. These the robbers did not molest, telling them to keep quiet and they would not be harmed. They kept quiet. After all the passengers in the car had been stripped of all money and valuables the robbers pulled the bell-cord, giving the rope signal to stop. The train stopped and the robbers, after giving the signal to go ahead, jumped off.

They fled to the woods after firing a fusillade and disappeared. The total amount of money taken was \$1,200, in addition to gold watches, diamonds and other valuables, worth much more.

From the fact that the robbers gave correct train signals it is believed they were railroad men. The train arrived here at 3 o'clock yesterday morning, and a posse was organized for pursuit. The robbery is regarded as one of the best planned and executed that has occurred in the west.

### Dr. Scott Seriously Ill.

WASHINGTON, Nov. 26.—The Rev. John W. Scott, father-in-law of President Harrison, eighty-three years old, is lying ill at the White House. His illness is of but a few days duration, having commenced with a fever which was probably the result of a cold. When the fever came on Dr. Gardner, who was Mrs. Harrison's physician during her long illness, was called in and succeeded in reducing it. Yesterday, however, it reappeared in a more aggravated form, and the patient, while not in much distress, is suffering greatly from weakness. The president's household realize that Dr. Scott's condition is such that it may terminate fatally.

### Taxing the Poor for a Crown.

BERLIN, Nov. 26.—The Roumanian committee on a wedding present for Princess Mary of Edinburgh, who is to wed the Roumanian crown prince, is reported to have been squelched by a communication from the young woman herself. As the purpose of the committee was to purchase a diadem for some 280,000 marks, few persons of any property in Roumania escaped tax levy. Recently the anti-dynastic newspapers of Roumania have made complaints against the committee's relentlessness with persons of small means, and these complaints got to the ears of the Princess Mary.

### Drowned by a Drunken Driver.

LONDON, Nov. 26.—The Standard's Constantinople correspondent says: An inebriate coachman, who Friday was driving a carriage in which rode Kelam Bey, with two distinguished friends, brought about a shocking and fatal accident. The man persisted in attempting to drive the carriage over the drawbridge connecting Stamboul and Galata, in spite of shouted warnings that the bridge was open. The carriage fell into the water and Kelam Bey and his friends were drowned. The coachman and a footman were rescued.

### Pay Car Stove Explodes.

KNOXVILLE, Tenn., Nov. 26.—The stove in the pay car of the Knoxville, Cumberland Gap and Louisville road exploded yesterday at Luttrell, severely, if not fatally injuring Paymaster Claxton. The day was very cold and the porter had filled the stove too full, the gases being unable to escape. One end of the car was totally wrecked. One other man was injured, but not seriously. Claxton was brought to Knoxville late in the afternoon.

### The Old Silver Brick Scheme.

KINGSTOWN, N. Y., Nov. 26.—Jacob Schopp, a wealthy farmer of Dutchess county, lost \$2,500 to William Houghton, on Wednesday, by the old silver brick game. Farmer Schopp advanced the sum of money mentioned on the supposed bullion which turned out to be solder. He vows vengeance against the sharpers who fleeced him, and has consulted Sheriff Bartlett, of Dutchess county, with the view of arresting the rogues.

### Official Election Returns Again Delayed.

COLUMBUS, O., Nov. 26.—When the application for a mandamus in the Fayette county election return case was called in the supreme court yesterday the attorneys for the Republicans again asked for more time, and the case was continued until Monday.

## BREAKERS BURNED.

Cornelius Vanderbilt's Summer Residence Destroyed.

### NEWPORT'S COSTLIEST BUILDING

Loss on Building Alone Over One Hundred Thousand Dollars, While That on Fine Furniture, Valuable Paintings and Bric-a-brac Will Reach Over Half a Million—Other Fire Losses.

NEWPORT, R. I., Nov. 26.—The Breakers, the elegant and costly summer residence of Cornelius Vanderbilt, was entirely destroyed by fire last night. Blackened and crumbling walls of brick and heaps of ashes are all that now remain of the palatial villa, which for years has been numbered among Newport's largest and finest residences. The fire also destroyed all the valuable contents of the villa, including furniture, bric-a-brac, wearing apparel and rare and costly articles of every description.

The fire was discovered by Mr. Vanderbilt himself about 4:30 p. m., the smoke being in the main hall. Within two hours the building and contents were totally destroyed. The villa was located at Och Point, nearly a mile and a half from the nearest fire station. Before an alarm could be sent out and the apparatus reached the scene the fire was far beyond control, and all that could be done was to stay rather than check the work of destruction.

A small portion of the furniture was saved, seeming large in itself but insignificant either in quantity or value when compared with that sacrificed. What was taken was the least valuable of all and not much of that, while all the rich tapestries, rare paintings, valuable bric-a-brac and elegant decorations and furnishings of every sort were beyond rescue.

RESIDENCE OF CORNELIUS VANDERBILT AT NEWPORT, R. I.

The house was built about a dozen or fifteen years ago for P. Lorillard, of New York, and was purchased, with the extensive grounds, by Mr. Vanderbilt in 1885. More than \$100,000 was expended in additions and improvements to the building, the value of which was estimated at more than that sum at the time of sale. It was of irregular shape, about 100 by 90 feet in size, from one to two stories in height, the lower part of brick and the upper of wood, with numerous towers and gables. The character of the furniture and decorations may be judged from the fact that in a single hall were hung tapestries estimated to be worth \$500,000 or more.

Members of the family and servants alike lost all their clothing in the general destruction. Mr. Vanderbilt and family found temporary refuge in the gardener's cottage on the premises, and were entertained during the night by hospitable neighbors.

Mr. Vanderbilt could give no accurate estimate of his loss, which, however, he stated, was largely covered by insurance through New York brokers. He said that although he had intended to remain in his cottage here until after the Christmas holidays, his family would now go at once to their New York residence. He felt grateful for the work of the fire department and that no lives had been lost or endangered, the fire occurring at an opportune hour. He will probably build a new and elegant villa at an early day.

The silver, jewelry and other valuables of a like nature were placed in the safes by the servants and are probably all right. Estimates place Mr. Vanderbilt's loss at not less than \$600,000.

### FIRE IN DETROIT.

The Michigan Forge and Iron Company's Works Destroyed.

DETROIT, Nov. 26.—At 1 o'clock yesterday afternoon fire started in the extensive works of the Michigan Forge and Iron company, which cover a whole block at the corner of River street and Clark avenue. In a short time the entire building, with the exception of the roughing department, was burned down, causing a loss of \$75,000; fully insured.

Three hundred and fifty men are thrown out of work. Senator McMillan is interested in this company.

### Perished in a Burning Building.

ST. JOHN'S, Mich., Nov. 26.—The house of John Johnson, a market gardener in the west part of the village, was destroyed by fire early Friday morning. Mrs. Johnson and an old man widely known as "Uncle" Hugh Boyd, were burned to death. Mr. Johnson got out, but is so fearfully burned he will probably die. The pecuniary loss is small.

### Hotel Burned.

NEW YORK, Nov. 26.—The two-story frame structure known as the St. Nicholas Park hotel, Bradhurst avenue and Fifteenth street, was burned to the ground at an early hour yesterday morning. All the guests escaped, with the exception of Rosa Kanbuhler, a servant girl, aged twenty-four, who was burned to death. The loss will reach \$15,000.

### Warehouse Burned.

LONDON, Nov. 26.—At 4 o'clock this morning the immense warehouse at the London docks was destroyed by fire. All the contents of the warehouse was destroyed. The loss will be heavy.

## EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & MCCARTHY,  
Proprietors.

TO MAIL SUBSCRIBERS:  
One Year.....\$3.00 Three Months..... 75  
Six Months..... 1.50 One Month..... 25  
DELIVERED BY CARRIER:  
Per Week.....6 cents  
SATURDAY, NOVEMBER 26, 1892.

The next administration will make short work of "bounties." The repeal of that feature of the McKinley bill will knock the sugar trust out of about \$10,000,000 a year, but "Uncle Sam" will be just that much better off.

No wonder the Republican National Committee need \$250,000 to square up their accounts. According to reports, Tammany's Chief "tricked" Carter out of \$50,000, and they now say Senator Quay bluffed the committee out of \$30,000 more.

CONNECTICUT cast the largest Democratic vote in her history at the late election. Republicans have been trying their hand at usurping in that State of late years, and the increased Democratic vote is a warning to the G. O. P. rascals to get out and quit their meanness.

MR. JOHN WALSH has entered the race for City Assessor. His formal announcement appears elsewhere. Mr. Walsh is one of Maysville's good citizens; he is well qualified for the position, and will make a faithful and efficient official if he is honored with the office.

REPUBLICAN editors in New York are explaining how Harrison came to lose the Empire State. Most of them think the secret ballot did it, and one of them closes his pathetic story with these words: "The Republican party had better quit monkeying with ballot reform." We have thought all along, and have so stated, that the "secret ballot" had a good deal more to do with the late Democratic tidal wave than many people imagined. And the secret ballot has come to stay.

THE State Solons are trying to legislate the Canada thistle out of existence. We doubt very much whether half the lawmakers would know this particular kind of thistle if they should run across it in the road. But while they are at such business they should not overlook the "crab grass," "fox tail" and "purslane," which annually give farmers a thousand times more work and worry than all the thistles combined. The Solons will make themselves solid with the farmers if they will rid the State of the grass and weeds named.

At the late election, the returns from Hillsboro precinct in Fleming County showed that Congressman Paynter's vote in that precinct was 50 less than the vote cast for other Democratic candidates. The Times-Democrat suggested that the officers of election had made a mistake and it so turns out. The count gave Mr. Paynter 141 votes, and Mr. McCartney 96, but by mistake Mr. Paynter's vote was put down as only 91, and the error was not discovered until too late to remedy it in the official certificate. Fortunately, the Democratic majority in the district was so large that a loss of 50 votes does not matter much. The mistake would have caused considerable trouble, though, had the district been very close.

CONGRESSMAN BRECKINRIDGE. An exchange says that Congressman Breckinridge is among the Cabinet probabilities. He would make a most excellent Attorney General, and would reflect honor upon Mr. Cleveland's administration. His grandfather, John Breckinridge, was Attorney General under that other great Democrat, Thomas Jefferson, who declared for "equal and exact justice to all men;" "peace, commerce and honest friendship with all nations, entangling alliances with none," and who had "a jealous care of the right of election by the people."

Congressman Breckinridge is a grandson of a grand man—able, eloquent and learned in the law. Here's hoping he will be the next Attorney General of the United States.

### The Postmastership.

Falmouth Guide: "The editor of the Maysville BULLETIN, (M. F. Marsh), will be an applicant for the postoffice at Maysville, and the Guide sincerely wishes him success."

Cynthiana Times: "The editor of the Maysville BULLETIN wants a piece of the pie when the passing time comes. He has his eye on the Maysville postoffice, and here's hoping he will get it. The BULLETIN did great work for the party in Mason County during the campaign."

Owingsville Outlook: "Thos. A. Davis, editor of the Maysville Public Ledger, a Republican paper, is present postmaster at Maysville, and the editor of the BULLETIN, a Democratic paper, is an applicant for the office under the new administration."

## RIVER NEWS.

There are 400 barges of coal ready to come out of the Kanawha.

The St Lawrence now extends her trips through to Manchester.

It is reported the Stanley will soon have opposition in the Cincinnati and Charleston trade.

The White Collar Line has purchased the wharf privilege at Dover from the wharfmaster J. W. Bainum for the remaining three years of his term.

The Courier-Journal man says the engine room of the Big Sandy is a model of neatness under the able and careful supervision of engineers Henry McClanahan and Phil Klipp.

Portsmouth now has two ferries and an additional one will be started December 1st. Before the C. and O. put in a boat, the company had paid the Browns as high as \$400 a month for ferrying freight alone.

### M. E. Church, South.

The congregation of the M. E. Church, South, will have no services to-morrow at 11 o'clock; but will worship in the Central Presbyterian Church with the congregation thereof, at 7 o'clock p. m., and thereafter every Sunday at 11 a. m. and 7 p. m. until further notice. The Sunday school will meet at that church at 3:30 p. m. to-morrow. The church has been kindly placed at our disposal until the second Sunday in January, or until our house is repaired.

The M. E. Church has invited us to use their house part of the time; and in grateful recognition of this fraternal spirit, it is recommended by the pastor and official board that our people unite with the M. E. Church in prayer meeting every Thursday night until we can use our own house again. C. J. NUGENT.

### "A Turkish Bath" To-night.

Winsome Marie Heath is the bright particular star of the musical comedy, "A Turkish Bath," that will appear at the opera house to-night. E. H. Macoy is the manager and he has a strong company in support of his star, prominent among whom is Miss Fannie Durham, soprano; James F. Greene, comedian and dancer; Henry Vogel, leading baritone from "Ali Baba"; Frank Murphy, Irish comedian; Jeppe and Fanny Delano, society sketch artists, late of Pony Pastor's company; Walter Dauphin, T. D. Miles, John Gurgun, W. A. Rusco and last, but not least, Miss Josephine Stanley, the Spanish and serpentine dancer.

### Some Prompt Work.

The blanks for licenses, as provided in the new Revenue law, have been prepared by the Auditor, printed by the Public Printer, and a large number of the County Clerks in the State supplied therewith. One day this week the Auditor received duplicates for twenty licenses issued by the Clerk of the Fayette County Court, aggregating \$2,225. All others of the blanks required by the new law, for assessment of corporate franchises, etc., are in the hands of the printer, and will be ready to send out next week.—Frankfort Capital.

### The Ladies.

The pleasant effect and perfect safety with which ladies use themay California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

### Notice to Tax-payers.

Thursday, December 1st, will be the last day for payment of city taxes.

R. A. COCHRAN, JR.,  
Collector and Treasurer.

MESSRS. KIRK & CLIFT shipped eight car-loads of cattle East over the C. and O. last evening.

GREAT reductions in ladies' and gent's gold watches, diamond pins, ear drops, rings, neck chains and pendants, at P. J. Murphy's, the jeweler.

THE Ashland Signal editor knows a good thing when he sees it. He "appropriated" the BULLETIN's article Thursday on the meteoric display the night before and gave us no credit whatever.

MR. JOHN J. FITZGERALD, the plumber, has been very ill ever since the fire at the M. E. Church, South, Thursday. He was one of the most untiring workers, and inhaled too much smoke. He was somewhat better last evening.

REV. D. H. CLARK, of Mt. Sterling, will preach at the Christian Church on to-morrow at the usual hours. He formerly had charge of a church at Baltimore, and enjoys the reputation of being an eloquent and polished speaker. All are invited to hear him.

PREACHING at the Central Presbyterian Church Sunday at 11 a. m. by Rev. W. T. Spears. Sunday school at 9:30 a. m. Christian Endeavor at 6 p. m. After the morning service there will be a congregational meeting, concerning matters of importance; the members requested to present. All cordially invited.

## WEATHER INDICATIONS.

For Kentucky, fair, preceded by showers, west and north; slightly warmer east; colder by Sunday morning west; southerly winds.

MINER's is the place to buy rubber shoes or any other kind of shoes. See advertisement.

THE Board of Directors and Gymnasium Committee of the Knights of St. John are requested to meet at their Hall to-morrow afternoon at 2 o'clock.

GEORGE F. BROWN, President.  
WM. MORAN, Recording Secretary.

## ANNOUNCEMENTS.

## "A RAIN OF FIRE."

What We May Expect To-morrow Night, if Astronomers Are Right.

A Description of the Wonderful Meteoric Showers in the Year 1833.

Professor Swift, a well known astronomer, predicts a rain of fire to-morrow night immediately after dark, and says it will be remembered for years. He thinks it will be one of those meteoric showers that in 1833 startled the world. If it proves any ways like that, it will be well worth seeing. You will not need a telescope or glass of any sort if the display comes up to the expectations of the astronomers. The new comet that has been creating such interest of late is expected to come very close to the earth to-morrow night in its celestial flight, and this will cause the "rain of fire," if there should be any. In order to enable the BULLETIN's readers to have some idea of what may be expected, the following description of the wonderful meteoric showers in 1833 is given. Burritt, in his "Geography of the Heavens," says:

"The most sublime phenomenon of shooting stars, of which the world has furnished any record, was witnessed on the morning of November 13, 1833. The entire extent of this exhibition has not been precisely ascertained, but it has been traced from longitude of 61° in the Atlantic ocean to longitude 100° in Central Mexico, and from the great lakes to the West Indies.

"Everywhere within the limits mentioned, the first appearance was that of fireworks of the most imposing grandeur, covering the entire vault of the heaven with myriads of fireballs, resembling sky-rockets. Their coruscations were bright, gleaming and incessant, and they fell thick as the flakes in the early snows of December.

"A very remarkable circumstance connected with this display was, that all the meteors seemed to emanate from the same point. This point was observed to be the constellation Leo.

"The meteors exhibited three varieties, the first consisting of phosphoric lines, apparently described by a point; the second, of large fireballs that darted along the sky leaving luminous trains which sometime remained in view for half an hour or more; the third of undefined luminous bodies, which remained stationary in the heavens for a long time.

"A gentleman in South Carolina thus describes the effect of the phenomenon upon the ignorant blacks: 'I was suddenly awakened by the most distressing cries that ever fell on my ears. Shrieks of horror and cries for mercy, I could hear from most of the negroes of three plantations, amounting in all to six or eight hundred. While earnestly listening for the cause, I heard a faint voice near my door calling my name, and beseeching me to rise, and crying, 'O my God, the world's on fire!' I opened my door and it is difficult to say which excited me the most—the awfulness of the scene, or the distressed cries of the negroes; upward of one hundred lay prostrate on the ground—some speechless and some with the bitterest cries, but most with their hands raised imploring God to save the world and them.

"The scene was truly awful, for never did rain fall much thicker than the meteors fell toward the earth; east, west, north and south, it was the same."

A remarkable change of weather, from warm to cold, accompanied the meteoric shower or immediately followed it. In all parts of the United States this change was remarkable for its suddenness and intensity.

LIEUTENANT JOHN V. SROUPE, a member of Company E, Seventh Ohio V. C., died a few days ago at Newhope, Brown County.

A MAN working in Alabama mines can speak twelve languages. At Ballenger's store they talk just plain English, but they can soon convince you it is to your interest to buy of him when you want anything in the jewelry line. He warrants his goods.

MAYOR PEARCE has received a letter from Cincinnati inquiring into the standing of the "Pennock Light and Improvement Company." The company claims to have a plant here and to be furnishing electric light by "primary batteries." They are frauds, and are not known in this section.

SAYS the Greenup Gazette: "The Ashland City Council has adopted an ordinance prohibiting saloonists from putting screens in front of the doors or windows, and to keep the blinds raised from 11 p. m. on Saturday night until 4 a. m. Monday. The ordinance also applies on other nights from 11 p. m. to 4 a. m., and no one but the proprietor or his servant shall be allowed in the saloon during those hours."

## STRIKE IN NEW YORK.

**Fifty Firemen Leave Part of the City Out in the Cold.**

NEW YORK, Nov. 26.—All the firemen in the New York Steam company's great plant in Greenwich and Washington streets, between Cortland and Dey streets, struck at ten minutes past 12 o'clock yesterday morning against a reduction of wages. The company employs about fifty firemen on the fifty-six boilers located around the great chimneys which are among the most prominent landmarks of the city.

They had been receiving twenty-five cents an hour and were working from eight to ten hours a day. The company had announced that hereafter they would be paid but twenty cents an hour, and would be expected to work twelve hours a day. Nearly all of them had been steamship firemen, and these said that this reduction would bring their wages down to a lower figure than they could get at sea, especially on American boats, and all joined in saying that it was a physical impossibility for a man to fire the boilers of the steam company's plant twelve hours a day for many days in succession.

The steamship men said that the fire rooms of the plant were hotter than the stokeholes of a modern steamer, where a man only worked four hours at a stretch and then was allowed to rest eight hours, to say nothing of the long vacations with full pay when the vessel was lying in port.

The men at work left their posts one by one. There was not a fireman left in the house, and before the men had left they had opened the dampers, letting great volumes of cold air into furnaces and bringing the steam pressure down like a shot.

Chief Engineer Clarence, who was in charge, rushed out into the street and begged the men to return, but was met with a peremptory but polite refusal.

The strikers were jubilant at the consternation they had caused. Before 1 o'clock the steam had fallen from the regular pressure of eighty-five pounds to the square inch to less than fifty pounds and was still rapidly falling.

The elevators in the Western Union telegraph building at Broadway and Dey streets had to stop running, and in this building and in the general post-office the electric lights went out, as there was not power enough to run the dynamos. There was a great hurrying around to start fires beneath the long idle boilers of their steam plants, and there was pandemonium in those of the morning newspaper offices that were caught without power at the very hour when their presses were about to start.

Superintendent Gaines, of the New York Steam Heating company, at 10 o'clock last night said that the places of the striking firemen had all been filled and that there were more applicants for positions than they could employ. The cause of the strike, Mr. Gaines said, was not so much the reduction in wages as the amount of liquor the night men had imbibed during and after their Thanksgiving dinner.

## FREIGHT TRAINS WRECKED.

**Fireman Instantly Killed, Engineer Fatally Injured and Brakeman Scalded.**

INDIANAPOLIS, Nov. 26.—A fatal freight wreck occurred on the Pennsylvania railroad near Richmond at an early hour yesterday morning, in which Fireman W. L. Beerman was instantly killed, Engineer H. I. Meyer fatally injured and Brakeman Harry Hendricks severely scalded. The three men lived in this city.

The accident was caused by the stalling of train No. 84 on Jackson's hill, one of the steepest grades on the division. The train was cut in two and a part of it left on the main track, about three quarters of a mile east of the switch. Train 81, westbound, was at the top of the hill to meet 84, and when the first part of train 84 had passed, the engineer, supposing the entire train had passed, started down the hill. There were no lights on that part of No. 84 left standing on the main track, and the engineer did not see it until he was a few hundred feet from it. Because of the steep grade the train was under such headway that it could not be stopped.

## BLAINE BETTER.

**He Will Start for Pasadena, California, in a Few Days.**

WASHINGTON, Nov. 26.—At midnight everything was quiet at the Blaine mansion, and the change for the better in Mr. Blaine's condition manifested in the afternoon was said to be fully maintained. As a proof of his improvement in health it was stated that Mr. Blaine had yesterday received Mr. Murat Halstead, and had informed him of his intention to start for Pasadena, Cal., about the first of the month.

Dr. Johnstone, one of the attending physicians, it was understood would pass the night in the Blaine residence as a measure of precaution.

## Dramatic Series of Trials Ended.

TOLEDO, Nov. 26.—The most dramatic series of trials ever known in this city came to an end yesterday evening when Councilman George M. Doner, of the Fifth ward, was found guilty of bribery. The grand jury indicted seven members of the council on this charge, six of whom are now under conviction. The seventh, Ransom P. Swain, turned state's evidence, and his testimony was largely instrumental in convicting the others. His case will probably be nolle, after which the six convicted men will be sentenced.

## King Behanzin Flees.

PARIS, Nov. 26.—A dispatch from Porto Novo states that King Behanzin, whose capital (Abomey) recently fell into the hands of the French expedition, has fled, in company with a small body of followers, into an unexplored country where it would be impossible, even if it were deemed essential, for the French forces to follow him. It is expected that the king will attempt, ultimately, to seek safety in a German settlement.

PORT JOSEPH, Mo., Nov. 26.—Joseph Tuller's livery stable was destroyed by fire Thursday night. Twenty horses were burned to death and three firemen injured by a falling roof. Oliver Knight fatally. Loss, \$25,000.

DR. A. H. WALL celebrated the eighty-second anniversary of his birth Thanksgiving Day. He is remarkably vigorous for one of his age. During the late Democratic jollification, he blew a tin horn with as much vim and enthusiasm as the youngest man in the procession.

Mr. O. H. P. THOMAS has moved into his elegant home on West Third street.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

## What is

# CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diphtheria and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

## Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,  
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHLOE,  
Conway, Ark.

## Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ANCHER, M. D.,  
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

## Fine Furs

SEAL SKIN GARMENTS  
FUR CAPES,  
NECK SCARFS,  
AND LADIES' TAILOR-MADE CLOTH,  
FUR-LINED AND FUR-TRIMMED CLOAKS AND WRAPS.

Nowhere in the West can you find such a mammoth and matchless stock of these fashionable Winter Garments, made of selected Furs, and of a reliable quality. They are designed and patterned by Mr. Joseph Davallion, the celebrated French Designer, and made under his personal supervision in our own work-shops. We challenge the world for style, workmanship, quality and price.

All our tight-fitting Seal Garments, have The Davallion Elastic Patent Fly, invented, owned and controlled by us exclusively in the United States, Europe and Canada. It prevents the edges from wear, and, being elastic, it assists the garment in adjusting itself to the varying sizes of the wearer.

No seal garment is complete without it.
